Ingestion

DO NOT induce vomiting. Drink plenty of water followed by milk if available. Never give anything by mouth to an unconscious person.

5. Fire-fighting measures

Suitable extinguishing media

Use dry chemical powder, foam, carbon dioxide, water fog.

Special fire fighting procedures

Keep up-wind to avoid fumes. Use self-contained breathing apparatus in confined areas.

Unusual fire/explosion hazards

None known.

Thermal decomposition products

Data not available.

Protective measures in fire

Self-contained breathing apparatus and full protective clothing must be worn in case of fire.

6. Accidental release measures

Person-related safety precautions

Wear protective equipment. Keep unprotected persons away. Ensure adequate ventilation.

Measure for cleaning/collecting

Absorb with liquid binding material (sand, diatomite, acid binders, universal binders, sawdust, etc). Dispose of contaminated material as waste according to item 13.

Additional information:

Prevent spillage from entering drainage/sewer systems. Spillages or uncontrolled discharges into watercourses must be IMMEDIATELY alerted to the Environmental Agency or other appropriate regulatory body.

7. Handling and storage

Handling

Ensure good ventilation during processing. Do not eat, drink or smoke while handling.

Protection against fire/explosion

General rules of fire prevention should be observed.

Storage

Keep containers and syringes tightly closed and dry. Store in a well-ventilated area, protected from direct sunlight and heat, with temperature below 30 °C.

8. Exposure controls/personal protection

Industrial hygiene

Remove immediately all contaminated clothing. Do not inhale vapor. Wash hands and contaminated areas with water and soap before leaving the work site. Do not eat, drink or smoke while using the product. Change clothing before leaving workplace and wash before reuse.

Suitable protective gloves like nitrile or viton are recommended. The breakthrough time of the selected glove must be greater than the intended use period.

Respiratory protection

An organic respirator NIOSH-approved for organic vapors is recommended where local ventilation is not adequate.

Eye protection

Protective goggles/safety glasses.
