BOSSIL TECHNOLOGY SDN. BHD.				
Bossil	Safety Data Sheet BS-8139 Wet Area Putty			
Issued date: 27/	12/16 Revis	sion date: -	Revision No.: 0	
1. Identificat	ion of the substance/prepa	ration and of the	company/undertaking	
Product use : Ep Company : Bo 22/ The Sg.	-8139 Wet Area Putty oxy adhesive ssil Technology Sdn. Bhd. A-1, Jalan Tasik Utama 10, e Trillium @ Lake Fields, Besi, 57000 Kuala Lumpur,	Telephone Fax Email Website	: +6016 - 2119190 : - : sales@bossil.com : www.bossil.com	
Ma	laysia.			
2. Hazard(s)	identification			
Substance/Mixture	: Mixture			
Hazard classification	Hazard classification : Skin Irrit.2			
	Skin Sens.1			
	Eye Irrit.2			
	Aquatic Chronic 3			
Pictogram	: GHS07	Exclamation mark		
Signal word	: Warning			
Hazard statement(s):			
H315	Causes skin irritation.			
H317	H317 May cause an allergic skin reaction.			
H319	Causes serious eye irritation.			
H412	Harmful to aquatic life with long l	asting effects.		
Precautionary state	ment(s):			
P261	Avoid breathing vapours.			

P201	Avoid breathing vapours.	
P264	Wash hands thoroughly after handling.	
P272	Contaminated work clothing should not be allowed out of the workplace.	
P273	Avoid release to the environment.	

Safety Data Sheet

BS-8139

Wet Area Putty

Issued date: 27/1	2/16 Revision date: -	Revision No.: 0
P280	Wear protective gloves/protective clothing/eye protection/face pr	rotection.
P302+P352	IF ON SKIN: Wash with soap and water.	
P305+P351+P338	IF IN EYES: Rinse continuously with water for several minutes. I present and easy to do – continue rinsing.	Remove contact lenses if
P333+P313	If skin irritation or a rash occurs: Get medical advice/attention.	
P337+P313	If eye irritation persists: Get medical advice/attention.	
P362	Take off contaminated clothing and wash before reuse.	

Other hazards which do not result in classification but contribute to overall hazards: None known

3. Composition/Information on ingredients

Chemical name	CAS No.	EINECS No.	%
Reaction product: bisphenol-A-(epichlorhydrin); epoxy resin (number average molecular weight ≤ 700)	25068-38-6	500-033-5	10 - 30

4. First-aid measures

In case of inhalation:

Remove to fresh air, keep warm and at rest. Contact physician if symptom persists.

In case of skin contact:

Remove contaminated clothing. Rinse with copious amount of water and soap. Get medical advice if skin irritation or a rash occurs. Wash clothing before reuse.

In case of eye contact:

Contact lenses should be removed. Rinse with copious amount of water immediately. Seek medical advice if eye irritation develops and persists.

In case of ingestion:

DO NOT induce vomiting. Rinse mouth thoroughly with water. Get medical attention if symptom persists.

Personal protection equipment for first-aiders:

Pay attention to any potential hazards and use recommended personal protection equipment if potential for exposure exists.

Most important symptoms and effects, acute and delayed:

Causes skin irritation and allergic skin reaction. Causes serious eye irritation.

5. Fire-fighting measures

Suitable extinguishing media:

Water, alcohol-resistant foam, carbon dioxide, dry chemical.

Safety Data Sheet

BS-8139

Wet Area Putty

Issued date: 27/12/16

Revision date: -

Revision No.: 0

Unsuitable extinguishing media:

High volume water jet.

Specific firefighting procedures:

Remove undamaged containers from fire area if it is safe to do so. Use extinguishing media that is suitable to local circumstances and surrounding environment.

Special person protection equipment for firefighters:

NIOSH-approved self-contained breathing apparatus and full protective clothing must be worn in case of fire.

Specific hazards arising from firefighting:

Exposure to combustion products may be a hazard to health.

Thermal decomposition products:

Not limited to carbon monoxide, carbon dioxide, hydrogen sulphide, oxides of sulphur and barium fume.

6. Accidental release measures

Personal precautions, protective equipment and emergency procedure:

Use recommended personal protective equipment. Keep unprotected persons away. Ensure adequate ventilation.

Measure for cleaning/collecting:

Wipe or soak with inert liquid binding material (sand, sawdust, etc). Scrape away cured material. Dispose the spilt material according to local or national regulations. Section 13 of this safety data sheet provides information regarding certain local or national requirements.

Additional information:

Prevent spillage from entering drainage/sewer systems. Spillages or uncontrolled discharges into watercourses must be IMMEDIATELY alerted to the Environmental Agency or other appropriate regulatory body.

7. Handling and storage

Handling:

Ensure good ventilation during processing. Do not eat, drink or smoke while handling.

Storage:

Keep containers and syringes tightly closed and dry. Store in a well-ventilated area, protected from direct sunlight and heat, with temperature below 30 °C. Keep away from incompatibles. Refer to section 10 for incompatible materials.

8. Exposure controls/personal protection

Engineering controls:

Ensure adequate ventilation and minimise workplace exposure concentrations.

Industrial hygiene:

Remove immediately all contaminated clothing. Do not inhale dust. Wash hands and contaminated areas with water and soap before leaving the work site. Change clothing before leaving workplace and wash before reuse. Do not eat, drink, or smoke while using product.

Hand protection:

Safety Data Sheet

BS-8139

Wet Area Putty

Issued date: 27/12/16

Revision date: -

Revision No.: 0

Suitable impervious protective gloves (latex, nitrile, etc.). Breakthrough time is not tested for this product. Change gloves often if possible.

Respiratory protection:

A NIOSH-approved respirator with filter for organic vapours is recommended where local ventilation is not adequate.

Eye/Face protection:

Protective goggles/safety glasses.

9. Physical and chemical properties

Appearance	: Cylindrical putty
Odour	: Mild odour
Odour threshold	: Not determined
рН	: Not applicable
Freezing/Melting point	: Not determined
Boiling point range	: Not applicable
Flash point	: Not applicable
Evaporation rate	: Not applicable
Flammability	: Not classified as flammable
Explosive properties	: Not classified as explosive
Oxidising properties	: Not classified as oxidising
Vapour pressure	: Not applicable
Vapour density	: Not applicable
Relative density	: 1.99
Solubility in water	: Not determined
N-octanol/water	
partition coefficient	: Not determined
Decomposition temperature	: Not determined
Viscosity	: Not applicable

10. Stability and reactivity

Reactivity:

No reactive hazards known.

Stability:

Stable under recommended handling and storage conditions.

Conditions to avoid:

Avoid temperatures above 300 °C. At 350 °C violent decomposition might occur and cause rapid pressure build-up.

Hazardous reactions:

Will not occur by itself. Amine, amide, and mercaptan compounds will cause irreversible polymerisation.

Hazardous decomposition products:

During normal storage, hazardous decomposition will not occur. At higher temperatures, decomposition products depends on the temperature, air supply and presence of other materials. Irritant gas and vapors will be produced.

Incompatible materials:

Avoid unintended contact with amines, amides, mercaptans, oxidizing materials, acids and bases.

Safety Data Sheet

Revision No.: 0

11. Toxicology information

No specific oral, inhalation or dermal toxicology data is known for this product. Any toxicological data included in this section is based on the data associated with the components.

Acute oral toxicity, LD₅₀ (rat):

Not classified based on available information and/or concentration of components.		
Reaction product: bisphenol-A-(epichlorhydrin); epoxy	>15,000 mg/kg	

resin (number average molecular weight \leq 700)	>15,000 mg/kg

Acute dermal toxicity, LD₅₀ (rabbit):

Not classified based on available information and/or concentration of components.

Reaction product: bisphenol-A-(epichlorhydrin); epoxy resin (number average molecular weight ≤ 700)	>23,000 mg/kg
---	---------------

Acute inhalation toxicity, LC₅₀ (4 hours, rat):

Not classified based on available information and/or concentration of components.

Serious eye damage/eye irritation:

Reaction product: bisphenol-A-(epichlorhydrin); epoxy resin (number average molecular weight ≤ 700)	Causes eye irritation.	

Skin corrosion/skin irritation:

Classified	l as skin	irritant.	

Reaction product: bisphenol-A-(epichlorhydrin); epoxy resin (number average molecular weight ≤ 700)	Causes skin irritation.
---	-------------------------

Respiratory/Skin sensitisation:

Not classified as respiratory sensitiser, but may cause an allergic skin reaction.

Reaction product: bisphenol-A-(epichlorhydrin); epoxy resin (number average molecular weight ≤ 700)	Causes sensitisation on skin.
---	-------------------------------

Germ cell mutagenicity:

Not classified based on available information and/or concentration of components.

Reaction product: bisphenol-A-(epichlorhydrin); epoxy resin (number average molecular weight ≤ 700)	Positive genotoxicity <i>in vitro</i> , but activity was eliminated by addition of metabolising enzyme. Negative genotoxicity <i>in vivo</i> .
---	--

Carcinogenicity:

Not classified based on available information and/or concentration of components.

Reaction product: bisphenol-A-(epichlorhydrin); epoxy	No carcinogenic potential.
resin (number average molecular weight ≤ 700)	NOAEL: 15 mg/kg bw/day

Reproductive toxicity:

Not classified based on available information and/or concentration of components.

Specific target organ toxicity - single exposure:

Not classified based on available information and/or concentration of components.

Safety Data Sheet

BS-8139

Wet Area Putty

Issued date: 27/12/16

Revision date: -

Revision No.: 0

Specific target organ toxicity - repeated exposure:

Not classified based on available information and/or conce	entration of components.
Reaction product: bisphenol-A-(epichlorhydrin); epoxy	Exposure by dermal for 13 weeks on rats.
resin (number average molecular weight ≤ 700)	NOEL: 1 mg/kg bw/day

Aspiration toxicity:

Not classified based on available information and/or concentration of components.

Likely route of administration:

Inhalation, skin contact, and ingestion.

Additional notes:

This product contains trace residual quantities of epichlorohydrin (CAS no. 106-89-8; EC no. 203-439-8). It is very unlikely that normal work practices with it in this workplace would release it to the atmosphere. Nevertheless, you should be aware that epichlorohydrin has been reported to produce cancer in laboratory animals and to produce mutagenic changes in bacteria and cultured human cells.

12. Ecological information

Individual components of this mixture have been independently tested by the raw material suppliers and any known results have been presented below. The results for the individual components may not be representative of the ecological toxicity of this finished product. This finished product has not been tested to determine individual toxicological/ecological limits.

Ecology toxicity:

Toxic to aquatic life with long lasting effects.

Reaction product: bisphenol-A-(epichlorhydrin); epoxy	
resin (number average molecular weight ≤ 700)	
Toxicity to fish	Exposure for 96 hours, LC ₅₀ : 2.3 mg/L
Toxicity to crustacean	Exposure for 48 hours, EC ₅₀ : 1.1 mg/L
Toxicity to algae or other aquatic plants	Exposure for 72 hours, EC ₅₀ : 9.4 mg/L

Persistence and degradability:

Not likely to be persistent based on available information and/or concentration of components.

Reaction product: bisphenol-A-(epichlorhydrin); epoxy	No biodegradation observed, but significant hydrolysis
resin (number average molecular weight ≤ 700)	observed. Exposure for 28 days, hydrolysis of >82%.

Bioaccumulative potential:

No bioaccumulation potential based on available information and/or concentration of components..

Reaction product: bisphenol-A-(epichlorhydrin); epoxy resin (number average molecular weight ≤ 700)	BCF: 31
---	---------

Mobility in soil:

No data available.

13. Disposal information

Waste treatment/disposal methods - unused products

Should not be released into the environment. Classified as hazardous waste according to (national equivalent of EC-Dir. 91/689; disposal of toxic and hazardous waste). It must undergo special treatment, e.g. at suitable disposal site, to comply with local regulations. Use a registered waste disposal company and supply accurate information about the nature of the hazard.

Waste disposal number: 08 04 09*

Safety Data Sheet

BS-8139

Wet Area Putty

Issued date: 27/12/16

Revision date: -

Revision No.: 0

Waste treatment/disposal methods - contaminated packaging

Contaminated packaging is classified as hazardous waste. Empty containers should be transported/delivered using a registered waste carrier for local recycling or waste disposal. Fully drained containers which are drop- and scrape-free can be treated as industrial waste, and can possibly be recycled. Waste disposal number: 15 01 10*

14. Transport information

Road transport (UNRTDG) UN number Proper shipping name Technical name Hazard class Classification code Packing group	 Not regulated as dangerous goods. Not applicable
Marine transport (IMDG) UN number Proper shipping name Technical name Hazard class EmS Packing group Marine pollutant	 Not regulated as dangerous goods. Not applicable
<u>Air transport (IATA)</u> UN number Proper shipping name Technical name Hazard class Packing group	 Not regulated as dangerous goods. Not applicable Not applicable Not applicable Not applicable Not applicable Not applicable

15. Regulatory information

Safety, health, and environmental regulations specific for the hazardous chemical in question:

Occupational Safety and Health (Use and Standards of Exposure of Chemicals Hazardous to Health) Regulations 2010 (Malaysia)

Occupational Safety and Health (Classification, Labelling, and Safety Data Sheet of Hazardous Chemicals) Regulations 2013 (Malaysia)

Regulation (EC) No 1272/2008 on classification, labelling and packaging of substances and mixtures (European Union)

Occupational Safety and Health Administration (OSHA) (2006) Air Contaminants. 29 CFR 1910.1000 (United States of America)

Work Health and Safety Act 2011 (Australia)

EH40/2005 Workplace exposure limits (United Kingdom)

Chemical inventory status:

Australia AICS	: All ingredients listed or exempt.
Canada DSL	: All ingredients listed or exempt.
